CHANGE OF SEASONS

Autumn is upon us and already people are talking about flu and headcolds. Acupuncture can help boost your immune system and the clinic offers a range of products which have proved to be effective in mitigating the miseries or holding them off altogether: Olivir (Olive-leaf Extract), Immunal (which is thymus and boosts your immune system), Lymph Detox formula, and DefendBlend (tincture of Echinacea). We have a new supplier of Western and Eastern Herbs (bulk) and would be happy to quote prices for you.

LONGEVITY RESEARCH

Dr. Wang continues his research on longevity and the clinic does stock longevity products: DHEA, Pregnenolone, Extend mushroom complex, Ashwaganda, etc. Please feel free to contact us by phone or E-mail for a complete listing of products and prices. We are always happy to mail to you.
