ActiveHerb Herbs Now Covered by Landmark Healthcare's Health Plan

Landmark Healthcare, Inc. serves health plans to improve the well-being of plan members by defining and promoting excellence in the delivery of physical medicine services. Upon joining its Acupuncture Network, practitioners become providers that are accessible by health plan members who receive discount on a variety of services including acupuncture, herbal medicine and massage therapy, etc.

ActiveHerb (including ActiveHerb and Guang Ci Tang brands) patent Chinese medicine is now among a list of only herbs may be used on Landmark patients. If you have any questions regarding Landmark Acupuncture Network and herb policy, please contact Landmark's Customer Service Department at 1-800-638-4557 or visit its website www.landmarkhealthcare.com.

Featured Product:

Bonekinder™

Bonekinder™ (Gu Ci Xiao Tong Wan, Gu Ci Xiao Tong Pian, 骨刺消痛片) is a Chinese herbal medicine to help maintain bone health. Bone health has long been a focus in traditional Chinese medicine (TCM), which states that bones are governed by the kidneys, a primary source of essence of life and of the Yin and Yang energy. Thus, bone health requires a strong kidney function. When the kidney function is compromised, the bone mass gets more easily lost and joints are more easily worn out. TCM also considers osteoarthritis the result of stagnation of Qi and Blood in the joints caused by Wind, Cold, or Dampness.
