

To Dr. Wang
From Trez McBean
your patient from long ago

Dear Dr. Wang,
I wanted to thank you
for saving my life. When I
was 4, I was diagnosed with
leukemia. The chemotherapy
almost killed my liver. Because
of you, I now have 2 beautiful
children and live a happy
normal life. I know this was
years ago, but better
late than never. I will never
forget you, and not a day
goes by that I could
possibly take this existence
for granted.

I wish you all the love
and happiness I have found.

With all of my
heart,
Thank you!
Sincerely,
Trez McBean
